Grindstones of various types indicate a degree of dependence on collected vegetable foods, and the animal bones suggest specialization in the hunting of zebras, wildebeests, hartebeests, and wild pigs. As always, there is uncertainty in these kinds of estimates, but there is no reason to assume that the difference between genders is nearly as large as what people think. As an author, he takes readers into the essence of what the ministry is meant to be, but, most of all, he takes them into the presence of God. Team 7 struggles to

redefine itself, because sometimes you don't know what you really want after all. He asks where she is so he can go talk to her. She turned back briefly to give me a distressed look.
